(ii) Selling & distribution expenses – decreased by \$184K or 29.6% (YTD)

decreased by \$251K or 81.5% (2Q 2018)

**General & administrative expenses** – increased by \$561 or 4.8% (YTD)

increased by \$338K or 5.7% (2Q 2018)

The net increase in operating expenses by approximately \$0.1 million or 1.4% and \$0.4 million or 3.1% in the current quarter and in the 1<sup>st</sup> half of 2018 respectively was mainly due to expenses incurred by our newly incorporated subsidiaries in the Hainan Province as well as higher personnel expenses as a result of the increase in headcount and annual salary revision.

The above increase was partially offset by the reduction in exchange loss and consultancy fees during the current reporting periods.

# (iii) Profit from operations

The increase in net finance costs by approximately 34.4% and 35.2% in the current quarter and for the half year ended 30 June 2018 respectively as compared to the corresponding periods in 2017 was mainly due to higher interest rates charged by financial institutions as well as an increase in the amount of bank borrowings outstanding during the current reporting periods.

The effective tax rate registered for the current quarter and for the half year ended 30 June 2018 were higher than the amount obtained by applying the statutory tax rate of 17% on profit before tax mainly due to losses incurred by some entities which cannot be offset against profits earned by other companies within the Group and the varying statutory tax rates of the different countries in which the Group operates. In addition, there were higher profit contributions from entities with a higher tax rate.

### **Notes to Statement of Cash Flows**

Net cash from operating activities in the  $2^{nd}$  quarter of 2018 was mainly due to higher profit generated during the current quarter, coupled with our ability to better manage our cash flow by extending our terms with our non-trade suppliers, which was partially utilised for inventory purchases.

Despite higher profit generated during the period, the **net cash used in operating activities** in the 1<sup>st</sup> half of 2018 was mainly due to funds deployed into inventory purchases, as well as the settlement made in relation to the acquisition of trademarks and formulation rights of a product.

**Net cash used in investing activities** was mainly related to capital expenditure incurred for ongoing enhancements to farm facilities in Singapore and overseas, as well as the infrastructure construction work for our new aquaculture business.

**Net cash from financing activities** was related to cash proceeds received from additional drawdown of bank term loans which was mainly utilised for the payment of dividend to the non-controlling shareholder of a subsidiary, the settlement of bank term loans and finance lease liabilities on a monthly basis, as well as the servicing of interest payments. In addition, there was payment of dividend made to the shareholders of the Company in April 2018.

Full convergence with Singapore Financial Reporting Standards (International) ("SFRS(I)") and the adoption of SFRS(I) 9

#### **Note 1 –**

The Group has adopted SFRS(I) for the financial year ending 31 December 2018 ("FY 2018") and has applied SFRS(I) 1 with 1 January 2017 as the date of transition for the Group and the Company.

The Group has elected the optional exemption in SFRS(I) 1 to reset its cumulative Foreign Currency Translation Reserve ("FCTR") for all foreign operations to NIL at the date of transition, and reclassify the cumulative FCTR of approximately \$1.0 million as at 1 January 2017 as determined in accordance with the previous Financial Reporting Standards (FRS) at that date to retained earnings. After the date of transition, any gain or loss on disposal of any foreign operations will exclude translation differences that arose before the date of transition.

(Incorporated in the Republic of Singapore) (Company Registration No.: 199806124N)

#### 1(d)(i) STATEMENTS OF CHANGES IN EQUITY (cont'd)

#### Note 2 -

SFRS(I) 9 replaces the current 'incurred loss' model with a forward-looking expected credit loss ("ECL") model. The new impairment model applies to financial assets measured at amortised cost or fair value through other comprehensive income ("FVOCI"), except for investments in equity instruments, and certain loan commitments and financial guarantee contracts.

In compliance with SFRS(I) 9, the Group has applied the simplified approach and has recorded the amount of loss allowance on all trade and other receivables by ascertaining the amount of ECLs that would result from all possible default events over the expected life of a financial instrument (lifetime ECLs). Based on the assessment made, there was an increase in impairment for trade and other receivables of approximately \$0.6 million and \$0.2 million for the Group and for the Company respectively as at 1 January 2018 with the adoption of SFRS(I) 9.

The changes in accounting policies resulting from the adoption of SFRS(I) 9 should be applied by the Group and the Company retrospectively. However, the Group and the Company have adopted the exemption in SFRS(I) 1 allowing it not to restate the comparative information in the FY 2018 financial statements. The differences in the carrying amounts of financial assets resulting from the adoption of SFRS(I) 9 are recognised in retained earnings and reserves as at 1 January 2018.

#### 8 REVIEW OF GROUP PERFORMANCE (cont'd)

### (a) Revenue (cont'd)

### 2Q 2018 vs 2Q 2017 (cont'd)

Although the revenue from our ornamental fish activities registered growth in the 2<sup>nd</sup> quarter of 2018 as compared to its corresponding period in 2017, the reduction in our accessories revenue has sliced off the increase in overall revenue in the current quarter as compared to its corresponding period in 2017.

# **Fish**

Our Dragon Fish sales continue to grow in tandem with the other ornamental fish revenue in the current quarter. We have since strived to gradually increase our export of ornamental fish by diversifying to more customers and more countries around the world from our export hubs in Singapore, Malaysia, Thailand and Indonesia, which have given rise to the improved ornamental fish revenue. Coupled with the sales generated from our newly incorporated subsidiary in the Hainan Province (China), which deals in the farming of antibiotic-free edible fish, we saw an increase in revenue contribution during the current quarter from this business segment, which was approximately \$0.8 million or 9.2% higher than its corresponding period in 2017.

# **Accessories**

With our accessories business being more export-oriented, we managed to leverage on our Group's existing overseas distribution bases & network and the infrastructure available to explore more untapped markets with growth potential.

During the 2<sup>nd</sup> quarter of 2018, we saw a dip in revenue contribution from our accessories business by approximately \$0.5 million or 4.8% as we experienced the loss of sales due to the announcement made on 16 May 2018 in relation to the abolishment of the implementation of Goods and Services Tax (GST) in Malaysia with effect from 1 June 2018. This has affected the sentiment of the retailers in Malaysia during the month of May, with a majority of our customers deferring buying until on or after 1 June. Nonetheless, the sales orders rebounded in June 2018 following the aftermath of the abolishment of the GST.

#### **Plastics**

Revenue from our plastic business remained relatively consistent in the current quarter, comparable to that of the corresponding period in 2017.

#### 8 REVIEW OF GROUP PERFORMANCE (cont'd)

# (a) Revenue (cont'd)

# 2Q 2018 vs 1Q 2018 (cont'd)

Although the revenue from our ornamental fish activities registered a reduction of \$0.5 million or 5.3% quarter-on-quarter, the increase in our accessories and plastics revenue by approximately \$0.5 million and \$0.3 million respectively has resulted in an increase in overall revenue by approximately \$0.3 million or 1.6% in the current quarter as compared to the previous quarter.

#### Fish

Moving into 2<sup>nd</sup> quarter of 2018, despite the sales generated from our newly incorporated subsidiary in the Hainan Province (China), we saw a reduction in our ornamental fish revenue contribution by \$0.5 million or 5.3% as compared to the previous quarter. This is mainly due to the summer holidays in Europe, which started in June and will extend till early September. Our ornamental fish export was affected as it has been the norm that our European customers will mostly take off for their own vacation and do not actively make ornamental fish related purchases during the duration of the holiday season. This year, the FIFA World Cup football tournament, which was held in June and July, also constituted to the lower ornamental fish purchases made by customers from many countries over the world.

#### Accessories

Traditionally, during the 1<sup>st</sup> quarter of each year, revenue contribution is lower from our China operations as they are closed for operations during the week-long Chinese New Year holidays. This had attributed to the lower accessories revenue in the previous quarter. In the current quarter, our accessories export business continued its leverage on the Group's existing overseas distribution bases & network and infrastructure available to explore more untapped markets with growth potential. This had resulted in an increase in revenue contribution registered by this business segment of approximately \$0.5 million or 5.6% in the current quarter as compared to the previous quarter.

The above increase was partially offset by the loss in sales due to the timing of the announcement on the abolishment of the implementation of GST in Malaysia as mentioned earlier.

# **Plastics**

With the enlarged customer base and product mix, our revenue contribution from our plastic activities managed to register a steady increase of approximately \$0.3 million or 11.7% in the 2<sup>nd</sup> quarter of 2018 as compared to the previous quarter.

#### (b) **Profitability (cont'd)**

# 6 months 2018 vs 6 months 2017 (cont'd)

In line with the higher revenue contribution registered, our overall operating profit increased by approximately \$0.2 million or 66.8% for the six months ended 30 June 2018 as compared to its corresponding period in 2017, mainly due to the considerable improvement in profit margins generated from our core businesses.

### 2Q 2018 vs 2Q 2017

Unallocated corporate expenses	(890)	(614)	(276)	(45.0)
	233	63	170	269.8

#### **Fish**

The surge in the operating profit from our ornamental fish business in the current quarter as compared to its corresponding period in 2017 was in line with the higher revenue recorded and the better margin yielded from the sales of our self-bred Dragon Fish and our ornamental fish export business, notwithstanding the initial start-up costs incurred in relation the Group's second aquaculture farm in the Hainan Province.

### **Accessories**

Despite the lower revenue contribution in the 2<sup>nd</sup> quarter of 2018, the better profit yielded from our accessories activities in the current quarter was primarily due to our conscientious efforts made to capture more markets through the selling of more proprietary brand of innovative products with better margins.

#### Plastics

The consistent revenue registered by the plastic activities, coupled with the gradual increase in overall operational costs has affected its probability in the 2<sup>nd</sup> quarter of 2018, as compared to its corresponding period in 2017.

#### **Unallocated corporate expenses**

These were staff costs and corporate/administrative expenses incurred in relation to the overseeing of both the Group's local and overseas operations.

Unallocated corporate expenses	(890)	(689)	(201)	(29.2)
	233	164	69	42.1

### **Fish**

The flat growth in profitability despite a reduction in revenue registered by the ornamental fish business in the 2<sup>nd</sup> quarter of 2018 as compared to its previous quarter was a result of the difference in sales mix, coupled with the reliance and resilience of our ornamental fish export business, which continued to turn in stable revenue and generate respectable profit margins.

# **Accessories**

The better profit yielded from our accessories activities were in accordance with the steady increase in revenue from 1<sup>st</sup> quarter 2018 to 2<sup>nd</sup> quarter of 2018 as well as the sales of more proprietary brand of innovative products with better margins.

#### **Plastics**

Notwithstanding the higher revenue registered by the plastic business in the current quarter, the profitability of the plastics business was affected by the gradual increase in overall operational costs quarter-on-quarter.

# (b) Geographical segments

Geographical segments are analysed by four principal geographical areas, namely Singapore, Asia, Europe and Others (i.e. the rest of the world).

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of the customers which the sales are made to regardless of where the sales originate. Segment non-current assets and total assets are based on the geographical location of the assets.
